

NATHANIEL SCHOEB

San Francisco, CA • (443) 504-4023 • nschoeb@gmail.com

PROFESSIONAL SUMMARY

Senior Software Engineer & Technical Lead with 4+ years of experience architecting secure, full-stack applications in high-stakes, regulated environments (DoD/HIPAA). Expert in **React, Node.js, and PostgreSQL**, with a proven record of automating compliance workflows to drive 80% efficiency gains. Specialized in leading Agile teams through the full software development life cycle (SDLC), balancing rapid feature delivery with rigorous security standards.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL, Java, C++

Frontend: React (Vite), Tailwind CSS, Responsive UI/UX

Backend & Database: Node.js (Express), Supabase, PostgreSQL, AWS

DevOps & Security: Docker, CI/CD (GitHub Actions), Secure SDLC, OWASP, HIPAA

Tools: Git, Jira, GitHub Copilot, Cursor AI, API Integration (OpenAI/Gemini)

PROFESSIONAL EXPERIENCE

Technical Lead / Software Engineer – SNPMIS

Apr 2022 – Present

Kreative Technologies LLC

Remote

- Architected a secure, web-based system for managing critical healthcare data, ensuring 100% data integrity for special needs children of U.S. military personnel during DoD audits.
- Led a cross-functional Agile team through the design and deployment of HIPAA-compliant data repositories and encrypted tracking modules.
- Automated Congressionally-mandated compliance reporting via Python scripting, effectively reducing manual reporting cycles by 80%.
- Mentored junior developers in secure coding practices and modern React patterns to maintain high code quality and system resilience.

KEY PROJECTS

Full-Stack Architect | Personal Project Portfolio

2025 – Present

- Developed a secure, multi-user workspace application using **React and Supabase**, featuring real-time data synchronization and PostgreSQL Row Level Security (RLS).
- Implemented custom SMTP authentication via Google and unique user data isolation to ensure a production-ready security posture for public-facing web services.
- Engineered a responsive UI with Tailwind CSS, including metadata tagging, task prioritization logic, and automated date-handling.
- Deployed and managed personal web services using **Render** and GitHub CI/CD pipelines for continuous integration and delivery.

EDUCATION

University of Maryland, College Park

Dec 2008

B.S. in Kinesiology, School of Public Health
